

SPEAKER

Dr. Yasas Sri Wickramasinghe

Augmented reality researcher · Senior lecturer · Software engineer — Christchurch, New Zealand

Dr. Yasas Sri Wickramasinghe is an augmented reality researcher, educator and software engineer based in Christchurch, New Zealand. He is a Postdoctoral Researcher at HIT Lab NZ, University of Canterbury, a Senior Lecturer at Yoobee College of Creative Innovation, and the founder of ICT Campus, an online classroom for Sri Lankan students. His PhD research on multiplayer location-based AR games is published at IEEE VR, ACM and Elsevier venues. Before academia he was a technical lead in industry, co-founded an AR/VR start-up under the MIT Global Startup Labs programme, and led part of a university MOOC platform that grew to more than 150,000 learners.

Signature talks

01 Designing Shared Worlds Across Distance

What three studies and 128 players taught me about AR that connects people in different places.

02 From Research to Reality: Where AR/VR Creates Real Value

Spatial computing without the hype — where AR and VR measurably help, and how research becomes products.

03 The Collaboration Reflex: Why Win-Win Is Usually the Wrong Answer

Forty-five real workplace conflicts, and what experienced professionals do instead of reaching for collaboration.

Where I speak & present

NZGDC

IEEE VR

ACM VRST

OzCHI

ACM SUI

Falling Walls Lab NZ

Tohoku University

IEEE WIE Sri Lanka

IEEE Computer Society SL

IEEE Entrepreneurship SL

University of Moratuwa

FORMATS

Keynotes & conference talks

Half-day workshops

Panels & guest lectures

Online worldwide · in person across NZ

RECENT & UPCOMING

NZGDC 2026 — Auckland

ACM VRST 2026 — Sendai, Japan

ICITR 2026 — Univ. of Moratuwa

IEEE Entrepreneurship Sri Lanka

Code Champ 2026 · IEEE WIE 2026
